

Crawford County Historical & Genealogical Society presents its new book

The book was compiled through the joint effort and talents of society members both near and far. Inspired by the history from our noted Crawford County Historian Richard Eastridge, our society newsletter editor created "A Look At Crawford County's History". The book includes original art by society member Linda Kimberly of Georgia, and Senator Richard Young of Milltown. Recommended for "all ages", the book contains historical facts of Crawford County with educational activity pages of map skills, word search puzzle, "dot-to-dot" pages, coloring pages, maze page, historical photos, nature appreciation, and more.
